

**Corrigendum 1**

RFP DESIGN, DEVELOPMENT, MAINTENANCE OF TABLET BASED AND WEB BASED DATA COLLECTION APPLICATION

**Additions:**

**Section VI Annexures -Addition in scope of work: Onsite Resource**

One Technical Resource will be deployed for 3 Years at DES, Bhopal. The resource should be graduate having at least 2 Year experience of development in application and database. He should be skilled in customized web based applications. He / She should perform the duties as assigned by the competent authority of DES. He / She should be sole responsible for smooth functioning of solution and any customization required by DES. He / She should get necessary technical and other support from the selected bidder. DES has the right to reject any resource or asked for replacement at any point of time without assigning any reason to the selected bidder. Selected bidder need to replace the resource if asked by the DES within 15 days of notice period.

DES has the exclusive right to review the need of the resource every six month and may ask the bidder to withdraw the services of the resource, if required.

No payment will be done for the resource services to the bidder, if the services of the resource are not taken by the DES.

The Qualification and experience of the resource should be as below:

<b>Qualification and Experience</b>
B.E. / B.Tech/MCA/M.Sc ( Information Technology)/MSc.( Computer Science) with 2 Years of Post Qualification Experience in development

The bidder shall be responsible for all the statutory and legal obligations and compliances related to the manpower deployed at the site.

**Section VI Annexures -Addition in scope of work: Validations**

There can be range validations and logical Validations required based on data input in previous fields in survey. For example

Item 1 + Item 2 + Item 3 + ... = Item N

OR

Item 1 - Item 2 + Item 3 – ((Item 4\* Item 5) / Item 6) + ... = Item N

OR

Total Male + Female population should be equal to Village population

## Corrigendum 1

### RFP DESIGN, DEVELOPMENT, MAINTENANCE OF TABLET BASED AND WEB BASED DATA COLLECTION APPLICATION

OR

Total Poet should not exceed Village population etc.

The Admin user should be able to configure such validations while designing template in the application.

The Surveyor should not be able to submit the data if there is any violation in the validations.

### **Section VI Annexures -Addition in scope of work: User Work Flow**

A Survey will have following work flow.

- a) Data Entry will be done by the Surveyor.
- b) 1<sup>st</sup> level Approver will get the data.
  - a. If Approved, The data will flow the 2<sup>nd</sup> level Approver with remark.
  - b. If rejected, The data will flow the Surveyor for correction with remark.
- c) 2<sup>nd</sup> level Approver will get the data
  - a. If Approved, The data will be finally submitted.
  - b. If rejected, The data will flow to the surveyor with remark

The Approval Matrix can be as below example:

Survey 1 → Surveyor 1 → Approver 1 → Approver 2

Survey 1 → Surveyor 2 → Approver 3 → Approver 4

Survey 1 → Surveyor 3 → Approver 1 → Approver 4

Survey 2 → Surveyor 1 → Approver 3 → Approver 5

Survey 2 → Surveyor 4 → Approver 5 → Approver 3

Survey 2 → Surveyor 2 → Approver 4 → Approver 1

### **Section VI Annexures -Addition in scope of work: Sizing**

There can be 2-3 big surveys and 5-10 small surveys in a Year.

A big Survey will have approximately 1000 surveyors who will do the data entry and approximately 200 approvers.

## Corrigendum 1

### RFP DESIGN, DEVELOPMENT, MAINTENANCE OF TABLET BASED AND WEB BASED DATA COLLECTION APPLICATION

A small Survey will have approximately 100 surveyors who will do the data entry and approximately 50 approvers.

Every Year data will be archived of the old surveys .

## **Section VI Annexures -Addition in scope of work: Auto Backup**

The application should have functionality in admin module to take the backup of database as per defined by the admin on regular intervals at pre-defined location on the server.

### Modifications:
